FINDING NEW WAYS TO CHALLENGE MYSELF

With the desire to solve puzzles, as well as improve and optimize workflows -- programming has created a wonderful outlet for me to find problems, determine multiple solutions and act on the solution that fits for the current task at hand.

PROGRAMMING EXPERIENCE

Bash, C++, C#, Cobol, CSS, HTML, Java, Javascript, JQuery, mySQL, PHP, PostgresSQL, Ruby, Visual Basic and numerous frameworks & testing modules

PROJECTS

- API Data Processing & Automation
- Database Management & New Integrations
- Database CRUD pages for non-Development Staff
- GUI Design & Implementation (UI/UX)
- Marketing Landing Pages
- Website Development
- Program Optimization & Refactoring
- Physics Engines
- Video Games
